

RUTHERFORD WEST PHASE ONE

HOMESITES In Rutherford West

Rutherford West is master-planned to stay balanced with nature as it grows. Out of the 58 existing home sites, 51 acres of the land have been left as undisturbed, open green space. The remaining 530 acres of the development are 80 ranches ranging from 4 to 19 acres. As we determine the land plan for Rutherford West, we do so with an eye to preserving the land and the history we all love.
